

**Saturday, September 13, 2014 – Friday, September 19, 2014**

*Note: Information in this update is intended to highlight the week's major grizzly bear management actions and is not intended to be a comprehensive detailing of all management activities. Information in this update is draft and subject to change as details from the field become available. Finalized annual reporting of this information is published in the annual report of the Interagency Grizzly Bear Study Team available at: <http://www.nrmssc.usgs.gov/products/IGBST>*

### **Verified Grizzly Bear Killed Livestock**

- Verified one (1) grizzly bear killed calf on a Forest Service grazing allotment in the Pinedale Region.

### **Research and Monitoring**

- Investigated radio collar losses (dropped collars) from grizzly bears in multiple areas. No collar loss was due to grizzly bear mortality but rather naturally shed collars.

### **Bear Management (Captures, Relocations, and Removals)**

- Captured and marked one adult male grizzly bear in the Cub Creek drainage. Monitored bear activities in the area.

### **Law Enforcement and Related Activities**

- Assisted with several investigations regarding grizzly bear-human encounters throughout northwest Wyoming.

### **Outreach and Education**

- Met with the North Fork Bear Wise Group to discuss ways to reduce grizzly bear/human conflicts.
- Worked with a North Jackson outfitter to troubleshoot problems that he was having with an electric fence at his camp.
- Posted signs at North Jackson trailheads with detailed information on how to avoid aggressive encounters with a bears.
